DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Wednesday, 23 March 2022 at 05:43 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Generally Low to Moderate levels of air pollution are expected across the UK on Wednesday, due to continued settled weather and winds from the continent. More widespread Moderate and locally High levels of air pollution are likely for eastern England and Scotland, particularly in urban areas.

Tomorrow: Continued areas of Moderate levels of air pollution expected across the UK, with some High, potentially Very High levels of air pollution possible for parts of eastern and southeast England.

Outlook: Moderate levels of air pollution widely across the UK during the outlook period. Urban areas and particularly southeast England at risk of reaching High, potentially Very High levels to start.
